**Subject: Kayakalp Results FY 2023-24**

The Kayakalp aimed at promoting cleanliness, hygiene and infection control practices in public healthcare facilities. The assessments is based on various parameters including hospital/facility upkeep, sanitation and hygiene practices, waste management, infection control, support services, hygiene promotion including eco-friendly environment. The Kayakalp was rolled out in the state of Punjab for the 9th year in all level of health facilities.

We are pleased to announce the results/ winner health facilities in Kayakalp FY 2023-24 in the state of Punjab who actively participated in a scheduled manner and have performed well in these assessments. Total of 93 secondary level health facilities and 346 Primary facilities qualified in achieving at or above 70 percent score. (Annexure A)

We extend our heartfelt congratulations to the winning facility management, staff for their performances during the assessment and to all the assessors who conducted these assessments with full sincerity and in true spirits to complete this exercise.

We would like to take this opportunity to urge all healthcare facilities to continue their efforts towards maintaining cleanliness, hygiene and infection control practices as an ongoing

process, and to strive towards achieving excellence in the same. Also to include the winners into the District Quality Assurance Annual plan to keep supporting and maintaining these facilities to achieve the NQAS certifications.
